Comisión Europea	EU22/29	Joint Action on CARdiovascular diseases and DIabetes	JACARDI is designed to integrate validated best practices and/or (cost-)effective interventions across countries and regions through transnational pilot initiatives, complementing and reinforcing existing policies and programs. The initiative covers the entire "patient journey", from improving health literacy and awareness of CVD/DM, travelling through screening and primary prevention among high-risk populations, reaching people living with CVD/DM and their care providers, improving service pathways, self-management, and labour participation. JACARDI also addresses transversal and intersectional aspects, e.g., promoting equity in health, social, cultural, and ethnic diversity and the improvement of data availability.	48 meses	554.738,29 €	443.790,62 €	80%	NO

Comisión Europea	EU22/30	Extended EHR@EU Data Space for Primary Use	The Xt-EHR proposal will prepare implementation guides, technical specifications, and a conformity assessment framework for the adoption of the European Electronic Health Record Exchange Format (EEHRxF), at a European Level. Through Xt-EHR, the interoperability and cross-border exchange of different types of health data will be promoted by proposing the necessary implementation guidelines for the implementation of new services that will complement the MyHealth@EU initiative. The necessary integration profiles of EHRs in the European market will be defined for improving the coordination of MS joint efforts towards interoperability in the EHDS proposal for primary use of health data. The ultimate goal through these actions is the formation of the European Health Union.	30 meses	100.990,88 €	80.792,70 €	80%	NO
